Group 9000-W16D-DONUT — “Beyond” MEETING MINUTES

Meeting #4

Date	Friday 2 October 2026
Time	11:00-12:00 (client demo review sync)
Time Keeper	Xuhui Wang (Hennessy)
Attendees	Team: Xuhui Wang (PO); Yinqjia Xie (SM); James Liu (FE); Vaibhav Vaibhav (BE); Xinghao Fu / Senhao (BE); Anoak Du (QA). Client: Kholoud AlQattan (co-clients Dr Basem Suleiman, Dr Gelareh Mohammadi).
Apologies	None
Please bring/read	V's demo build; James's demo build; P13 project spec; client feedback notes.
Other resources	Microsoft Teams channel; demo recordings / screenshots.
Meeting purpose	Client demo review - evaluate the two prototype demos (V's and James's), reconfirm role priorities, and align on the UI fusion direction for the Researcher interface.
Next Meeting	Client sync: Friday 16 October 2026 (fortnightly). Next internal lab / Demo A: Tuesday 14 October 2026.

Agenda

Item	Agenda Item	Assignee	Notes
1	Demo evaluation & client feedback	Presenters: V & James; Client (reviewed)	Both demos are clean and functionally complete. Client prefers V's researcher experiment-builder: its three-column partition (stages | design page | feature page) is more intuitive. James's demo is feature-complete; client suggests consolidating the 'add-to-page' feature modules into a single unified right-hand column.
2	Priority	Client / Team	Core priority reconfirmed: Researcher >

	reconfirmation		Participant > Administrator. Client is satisfied with current progress. After the Researcher UI is complete, develop the Participant flow, then Result Visualization, in sequence.
3	UI fusion direction	Client / Team	Combine strengths for complementary synergy: James's blue-white UI (fits the rational, restrained experimental tone) plus V's intuitive three-column partition.
4	Next steps & schedule	PO / Team	Fold the fused design into Sprint 1; target Demo A (14 Oct 2026) for Researcher UI + Participant flow; next client sync 16 Oct 2026.

Open Actions

Item	Action/Discussed	Deadline
1	Adopt V's three-column researcher builder layout (stages / design page / feature page) as the Researcher UI baseline. Owner: Backend (Vaibhav) + FE (James)	Before Demo A - 14 Oct 2026
2	Refactor James's demo: move 'add-to-page' feature modules into one unified right-hand column. Owner: FE (James Liu)	Before Demo A - 14 Oct 2026
3	Apply James's blue-white UI theme across the fused interface (rational / restrained tone). Owner: FE (James Liu)	Sprint 1 - by 13 Oct 2026
4	Develop Participant flow after Researcher UI; then Result Visualization, in sequence (priority: researcher > participant > admin). Owner: Team	Participant - Sprint 2 (15 Oct-3 Nov); Result Viz - Sprint 2-3
5	Keep Administrator role deferred to the end (lowest priority, reconfirmed). Owner: Team	Ongoing / end of project

Questions for Mentor

None

Questions for Client

Q: Is the fused direction (James's blue-white UI + V's three-column layout) acceptable as the going-forward design?
A: Yes - client endorsed combining both; no objection.

Q: Any change to the capture scope (AI log + copy-paste + self-video; screen recording optional)?
A: No change; scope stands as confirmed at kickoff (25 Sep 2026).

Q: Target for Demo A?
A: Researcher UI (fused) + Participant flow for the scenario; Result Visualization can follow.
